

## TO BLAZE A TRAIL IN CHALLENGING COVID THREATS TO MAKE HEADWAY: A BREATH OF FRESH AIR

**RRP S4E** is leading research tech company. For Nation's Interest RRP with its Product Design Strength have developed a unique product in specific to the PERSONAL PROTECTION SPACE of every individual.

**T**he company is structured and supported by Maharashtra Defence and Aerospace Venture Fund., eminent scientist Dr. Anil Kakodkar, former Atomic Energy Commission Chief, and Lt.Gen Rajendran Nimbolkar.

Our Founder Chairman Shri. Rajendra Chodankar vision has got its shape in Mahape with a state-of-the-Art Scientific Research Facility spreaded in 15000sq.ft.

Taking His journey ahead after setting up the nano machining facility, Thermal Imaging and inspired by the thought there is more space at the bottom adding to his successful journey he moved into the Med Tech domain, the fear on personal protection got fuelled and evolved with possible multiple combinations of Technologies to develop AEREM100. He Strongly believed that this MAKE IN INDIA initiative will be an iconic project for the country and will support the country in

this Pandemic. The Unique Integration of 5 different technologies in AEREM 100 make it so successful and ensures sure freedom in mobility. -ve ION GENERATION with UVC exposure combined with our Nano Photo Catalyst and O2 Species protects from any airborne threats and the unique design supports prolonged protection with ease of carrying with u anywhere. Our PD team have taken extensive care in making the product complete to suite every age group to use the product at ease. Empowered with IOT, ALEXA and Mobile Operations the tiny protector can do wonders in tune to your life style. Adding to the features, the operational expense is so minimalistic making every person in the society can be benefited. We take the pride in mentioning AEREM100 as the product for Life. Extending our make in india initiative in the field of Thermal core technology by virtue of our perpetual sodality with our academia partner IIT Mumbai has now branched further into offering specialized surveillance systems for Border applications sanctioning targets to be detected at extended distance. "Integrating as the jewel to the crown is Our Viraj Series Dome PTZ Surveillance camera has been tested in sensitive border locations in sundry climatic conditions and the product proved its efficiency and facileness for its functional operations, with a distinct edge in the pricing of the product making it almost 25% cheaper."

AEREM 100

VIRAJ SERIES DOME PTZ SURVEILLANCE CAMERA

There is no job that can give you as much fulfilment, contentment and pride as we accommodate the armed forces. We are equipollently charged and exuberant about accommodating the armed forces. In short RRP seems to be doing full justice to ATMANIRBHAR-MAKE IN INDIA. JAI HIND.
